Our Service Model

LRB&co
Chartered Accountant

In today's dynamic business environment, change is the only constant. Our servi delivery units are designed to help businesses proactively anticipate and manage the impact of change and meet emerging economic imperatives. Over the years, we have realized that as trusted advisors of our clients, we cannot just be delivering what our clients want but what our clients should get and this has completely changed our service orientation towards our clients.

The key differentiators of our service model are as follows:

- Deep understanding of the clients' business
- Continuous interaction and engagement with our clients
- Deep understanding of local and global business environment
- Extensive use of IT support
- Value driven and outcome based service delivery
- ISO and Six Sigma certified processes
- Cross functional teams at work

BUSINESS INSIGHTS

We believe that getting business insights and use of this information in right direction is the key. We always interested in understanding client's business and processes in depth

VALUE

Service is always determined by the value rendered to a client. Hence, our efforts have always been directed to designing a service model that delivers value.

GROWTH

Service to clients benchmarks our success. As a team we believe that client satisfaction is achieved when we are a part of the driving force that enriches the growth of our client.

Accounting & Risk Advisory Services

LRB&co
Chartered Accountant

To manage stakeholder expectations – both external and internal and reach its potential, an organization must continuously improve its perfor
and sustain that improvement.

We help boost corporate performance by supporting management with the tools they need to deliver. We work side by side with clients to diagnose and quantify scope for improvement, identify key levers to reduce costs or improve productivity, and draw up action plans that are ambitious yet practical.

To truly manage risk, it is vital to enable the right frameworks. We help enhance your business performance by building strong risk management frameworks into the very core of your business processes. This enables us to minimize negative outcomes so you can exploit business opportunities without risk.

Corporate CFO Outsourcing

LRB&co
Chartered Accountant

As we live in very dynamic and competitive world, we understand different requirements of various clients with respect to CFO function. We ca
various companies right from small MSMEs to large MNCs where we provide services like budget preparation, capital restructuring, establishin
corporate governance, audit co-ordination, accounting services, MIS preparation, variance analysis, health check of balance sheet, opinion on revenue accounting scheme, drafting SOPs, year end closure etc.,
To stay flexible, we also provide part-time/full time/virtual CFO services as per client requirements

Plan Your Future

A cash flow forecast helps CFOs predict future outcomes based on today's decisions, enabling smarter financial planning. It's an essential tool for guiding your team's strategy.

Monitor Business Performance

To hit your goals, you need more than a budget. CFO services set up your budget and continually track performance to keep you on course.

Ready for the Challenge

In a cash crunch, a clear strategy is crucial. Your CFO can help you navigate challenges and manage costs effectively during tough times.

Build Team

When should you hire? Is your team efficient or overstaffed? Can you afford raises? Your CFO will assess your staffing needs to craft a scalable solution.

Create Wealth

The key to building wealth is managing your fixed and variable costs. Your CFO will leverage financial reporting tools to pinpoint spending opportunities that align with your business goals.

Manage Risk & Debt

Your CFO works to optimize your liabilities. If your business has debt, they can create a reduction strategy to help you regain financial stability.

Business Process Outsourcing (Customised Solution)

LRB&co
Chartered Accountant
